Primary Maths Challenge

Having attended the Primary Maths Challenge at St. Gregory's Catholic Science College myself in Year 6, watching countless Year 6 pupils running around trying to solve relatively complex problems in a race against time immediately sent a wave of nostalgia over me. It was incredibly refreshing and rewarding this time, however, to be on the other side of the things as a marker, running up and down rows trying to mark each team's answers in the most efficient manner possible. It really was an afternoon filled with heavy thinking, interesting problems and solutions and (at the end of it all), immense joy for St Robert Southwell Catholic Primary School, who emerged as victors for a second time.

Eco-Schools

ECO COMMITTEE

This year's Eco Committee has been incredibly industrious. Pupils have completed a whole-school Environmental Review; planned, coordinated and delivered campaigns to save energy, reduce waste and to encourage pupils to walk to school. In addition, they completed a plastics challenge for Keep Britain Tidy, organised an upcycling competition and packaged up hundreds of computer toners for recycling. Their fantastic achievements helped the school to be shortlisted for the Times Educational Supplement's Sustainable Schools Award. Well done to:
